

## Instructions for assembling the Maku piping set

315787 Maku piping set

1. Unscrew the plastic parts.

2. Push the larger piece right up to the end of the bag and look for a suitable cut point.

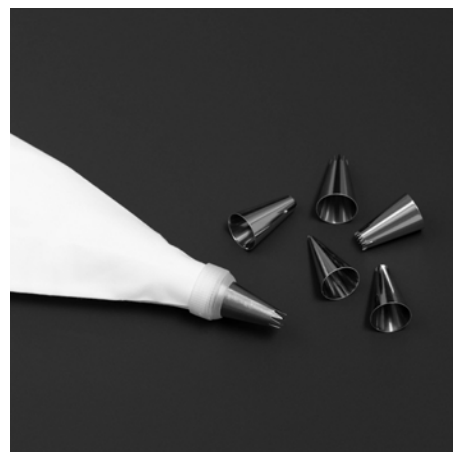

3. Cut the end of the bag just enough to leave the threads inside the bag.

4. Add the nozzle you want to the smaller plastic part.

5. Screw the nozzle into place.

6. Your piping set is ready for use.
